BOOK SYNOPSIS

From THE AGE OF MIRACLES Sometimes what we appear to have lost is simply something it was time to leave behind. Perhaps our system just lets something go, our having moved through the experience and now needing it no more. A friend of mine was sitting once with two of his best friends, a couple hed partied long and hard with during the 1960s. At about ten in the evening, the couples twentysomething daughter came home, saw them on the couch, and admonished them, You guys are so boring! You never go out! To which all three responded in unison, We were out, and now were in. The mind is its own kind of dance floor. If in fact the highest, most creative work is the work of consciousness, then in slowing down were not doing less; were doing more. Having slowed down physically, were in a better space to rev up psychically. We are becoming contemplative. We are shifting from the outer to the inner not in order to begin our demise, but to reseed and regreen the consciousness of the planet. And thats what is happening now: Were going slower in order to go deeper, in order to go faster in the direction of urgently needed change in the world. - Marianne Williamson
